

StreamReader::checkForStruct

```
graph LR; A[StreamReader::checkForStruct] --> B[StreamReader::searchFirst]; A --> C[StreamReader::searchIdent];
```

The diagram illustrates a control flow graph. On the left, a gray rectangular node labeled 'StreamReader::checkForStruct' has two outgoing blue arrows. The top arrow points to a white rectangular node labeled 'StreamReader::searchFirst', and the bottom arrow points to another white rectangular node labeled 'StreamReader::searchIdent'.

StreamReader::searchFirst

StreamReader::searchIdent
